DETAILED ACTION

Page 2

1. This communication is responsive to the applicant's response to restriction dated 11/30/2005.

The Group and/or Art Unit location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Group Art Unit 2615.

Response to Restriction

- 2. Applicant's election of Specie 1, claim 1-36 in the reply filed on 11/30/2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
- 3. Claims 37-47 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected specie, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 11/30/2005.

Art Unit: 2615

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Claim 1 recites the limitation "the retrieving key sound characteristic parameters" in lines 3-4. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the sound source" in line

5. There is insufficient antecedent basis for this limitation in the claim.

Claims 1 recites the limitation "the sound characteristic parameter" in lines 5-6. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the similarity between them" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitations "the retrieving key sound characteristic parameters", "structural factors of the sound source", "the similarity"; it is unclear what these limitations are being referred to since there is no support or explanation being recited. Clarification is required.

Claim 2 recites the limitation "the sound characteristic parameters" in lines 2-3. There is insufficient antecedent basis for this limitation in the claim.

Claim 2 recites the limitation "said one or more than one audio signals are prepared in advance" in lines 1-2. It is unclear what or how the audio signal(s) is/are being prepared. Clarification is required.

Claim 4 recites the limitation "the suer" in line 2. This appears being misspelled. Perhaps it should be --a user--.

Claim 5 recites the limitation "the retrieving process" in line 54. There is insufficient antecedent basis for this limitation in the claim.

Numerous 112th problems are also appeared in claims 6-11 and provide too much burden for the Examiner to list the various grammatical and idiomatic errors. It is requested hereto the applicant should clarify the errors and make corrections accordingly.

Claims 12-36 as recited in different groups are having substantially the same 112th problems as listed by the example of group 1, claims 1-11 above.

- 6. Claims 1-36 are too indefinite to examine against art at this time. They will be treat upon merit when the corrections to the 112th problems in claims 1-36 are addressed and corrected.
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Xu Mei whose telephone number is 571-272-7523. The examiner can normally be reached on Monday-Friday (9:30-6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vivian Chin can be reached on 571-272-7848. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Application/Control Number: 09/830,222

Art Unit: 2615

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
